PRESIDENT'S MESSAGE

Mr Eric Lee
President
Dyslexia Association of Singapore

Dear Distinguished Donors, Sponsors and Golfers,

On behalf of the Dyslexia Association of Singapore's Executive Committee and our Charity Golf Organising Committee, a big "thank you" for joining us for the DAS Charity Golf 2021.

This year DAS celebrates its 30th Anniversary. We started as a community service project by the Rotary Club of Raffles City. Working for the dyslexia community for 30 years would not have been possible without our supporters, donors, volunteers, parents and of course the staff of DAS. This charity golf tournament is a celebration of our 30th birthday and the World Dyslexia Awareness month. What better way to raise funds for dyslexic children from low-income families!

We have managed to secure our target of 30 flights today. Through the sale of flights, sponsorships, and donations, we expect the total amount raised to be over \$200,000.

Many have helped us in this event. I would like to thank Sheng Siong Supermarket,

Cycle & Carriage Industries Pte Ltd, Rajan Menon Foundation, NTUC Foundation, Australian Fruit Juice (S) Pte Ltd, Mitsubishi Electric, Chi The Spa at the Shangri-La Singapore, Canon Singapore, Cellini Design Center Pte Ltd, Aesthetic Bay, Laguna National Golf Resort Club, Ben Line Agencies, The Malayan Council and many individual donors and flight sponsors for their very kind support towards our cause.

My heartfelt thanks to the Organising Committee, headed by our Fund-Raising Chairperson Dr Cynthia Tan, Special Advisor Mr Kevin Kwee, DAS staff members Surjati Soekraman, Deborah Hewes, Kavin Kumar and Nur Atiqah. Without their sterling efforts, this event would not have been possible.

Support for Children with Dyslexia

Dyslexia is a learning challenge. Given the right specialised educational support, children with dyslexia can progress in their learning journey. Under our Main Literacy Programme, DAS provides critical intervention in areas such as reading, spelling, comprehension and writing.

We also provide support in Mathematics, Science, Chinese and Speech and Language Therapy through our Specialised Educational Services. And we advocate early detection and diagnosis through our Psychological Assessment Services.

Today, DAS provides a wide range of programmes and services in our 14 learning centres across Singapore, for 3,500 children from preschools to primary and secondary schools. In 2021, more than half of our students are from lower-income families who qualify for bursaries to help them access our various programmes. Every year, DAS needs to raise up to \$2 million to support these children to get the support they deserve.

This figure is rising as awareness of dyslexia continues to grow. The number of children receiving our help now still forms only a fraction of the number of children with dyslexia in Singapore. It is estimated that in Singapore, there are 23,000 students from preschool to secondary school with dyslexia, severe enough to warrant intervention.

To help more of these children, we need your support. We hope you can make a contribution anytime through the course of the day by approaching any of our staff. Please also actively take part in the raffle draw and virtual auction or visit our website to make contributions online.

Despite the restrictions of a pandemic, our efforts to deliver our services to those with dyslexia have continued and we can look forward with greater confidence as we provide more

dyslexic individuals with comprehensive and better services.

Given the right specialised educational support, children with dyslexia can progress in their learning journey.

DAS continues to stand ready to provide support in nurturing children and people with dyslexia and other specific learning differences to achieve their full potential.

I wish everyone a really good time today. Thank you for making a positive contribution to the families and community impacted by dyslexia!

Any mother who watches her son struggling

will feel a deep sense of concern.

And that was what Madam Sofia felt when she saw that her son, Ahmed, was behind his peers in terms of reading and understanding.

Sensing something was wrong, she decided to send him to KKH where he was later diagnosed with dyslexia. There is no cure for dyslexia, and early intervention is crucial in ensuring the right coping mechanisms are in place for learning and development.

Madam Sofia had her son enrolled in the DAS Preschool Early Literacy Intervention Programme but was concerned about the cost of his specialised education fees. She had not been working and her husband who had been the families' breadwinner had passed on when Ahmed was just 2 years old. Madam Sofia had moved in with her parents and was worried she would not be able to provide him with the specialised education he needed.

Besides providing intervention, DAS also provides bursaries to lower-income families and Ahmed had qualified for it. The bursary covered his programme fees and lifted a huge burden off Ahmed's family and has eased the mind of Madam Sofia. She is also happy to see him more confident and happy and she knows this programme has made a difference in his life.

Without the support from DAS, I don't think I'll be able to provide, to send him for this special education that he needs. On my own...I think it's difficult.

Our Success, Our Responsibility

RHT Rajan Menon Foundation Ltd ("Foundation") is a Singapore registered charity as well as a grant-making philanthropic organisation approved by the Inland Revenue Authority of Singapore. It is the corporate social responsibility vehicle of RHTLaw Asia LLP and the RHT Group of Companies. The Foundation enables philanthropic activities to be carried out in a structured and more sustainable manner. Set up in 2015, the Foundation seeks to establish, inspire and encourage a philanthropic culture among the corporate and legal fraternity of giving back to the community in a focused, hands-on and meaningful manner.

*Official Launch of RHT Rajan Menon Foundation's Eldercare Guidebook
by Prime Minister Lee Hsien Loong on 11 August 2018*

The Foundation supports 4 main causes i.e. education, disadvantaged groups, environment & sustainability, and the arts and sports. In addition to its Ageing Right Project (an ongoing initiative on eldercare), the Foundation also spearheads an initiative on sustainability, which is called Greening ASEAN: Initiatives & Leadership (GAIL).

Since its inception, more than S\$3 million has been raised for our various beneficiaries which include Singapore Red Cross Society, Singapore Management University Pro Bono Centre, PAP Community Foundation, Dementia Singapore, Singapore Golf Association, Life Community Services Society, Singapore Cancer Society, Malay Youth Literary Association, Teen Challenge Singapore, Nature Society (Singapore), and National Gallery Singapore. We recognise that every contribution has an impact on our beneficiaries and we are grateful to our donors and sponsors for their generous support.

Thank you for changing lives.
