JOB DESCRIPTION

Position	Educational Therapist (Chinese) – Flexi Scheme
Division/Branch	Chinese Programme, SES Division

We are looking for individuals with a passion in teaching Chinese but are not able to commit to a full-time job. Candidates must be able to commit to a minimum of 8 teaching hours per week, and respond at short notice to cover classes at the different DAS learning centres. They must be able to commit to this arrangement for a minimum of two years. All candidates must be registered with the Ministry of Education (MOE) before they can start teaching at the DAS.

Programmes under the DAS

Children with dyslexia, once assessed by DAS Specialist Psychologists from the SpLD Assessment Services division, are referred to the Main Literacy Programme (MLP) under our English Language and Literacy (ELL) division. Many children are also referred to DAS by psychologists from MOE, hospitals and private practice. These children attend classes in MOE schools and come to the DAS for additional support after school hours. Students normally come to the 12 DAS learning centres for two hours a week during the regular school term. DAS classes are kept to an average of four students to ensure individual attention can be provided. Our educational therapy is based on the Orton-Gillingham approach and covers a range of literacy skills including phonics, which enables children with dyslexia to learn better and become independent learners. DAS Educational Therapists also meet up regularly with learners' parents to give feedback, advice and encouragement.

Over the years, we have received many requests from parents to provide support in the Chinese Language as well. While some research and remediation programmes have been ongoing in China, Hong Kong and Taiwan, Singapore's unique multilingual environment and learning of Chinese as a second language require differentiation as the challenges that children with dyslexia face in Singapore are different.

The DAS Chinese Team has piloted research in this area in 2009 and kickstarted the Chinese programme for children with dyslexia in Singapore in 2013. The programme, under the Specialised Educational Services (SES) division currently has an enrolment of more than 300 students and has supported more than 500 students over the years.

The duties and responsibilities of a DAS Educational Therapist (Chinese) includes

- Providing intervention in the Chinese language in a small group setting
