

# LEARNING DIFFERENTLY

## WE'VE EXPANDED ACCESS TO ALL DAS PROGRAMMES!

DAS is excited to announce that we have redefined "access" to all our programmes. A diagnosis of a specific learning difference is no longer a prerequisite.

To access our programmes all students will undergo profiling tests, a simple step to ensure they are placed in a class that suits their learning needs best. We're dedicated to providing tailored support to every child, empowering them to reach their full potential.

## EDUCATION FOR ALL

### STUDENTS WHO LEARN DIFFERENTLY

At DAS, we understand that every child's educational journey is unique. While some learners progress smoothly, others may encounter learning gaps or struggle with foundational skills. We believe that with the right support and resources, these challenges can be overcome, and every child can reach their full potential. DAS programmes are designed to support struggling learners to build foundational knowledge, boost confidence, and nurture a lifelong love for learning.

### FINANCIAL ASSISTANCE

At DAS, we believe that all students who learn differently should have access to quality educational support, regardless of their financial background or diagnosis. In line with our commitment to inclusivity, we offer financial assistance not only to children diagnosed with dyslexia and other specific learning differences but also to students who face similar challenges without a formal diagnosis.
